

# IIN LOOKUP SERVICE FOR MOTO TRANSACTIONS

---

Description: The IIN (issuer identification number) look-up service from Secure Trading is a new feature\* that enables a merchant's telephone order sales assistants to check the origin of the Bank payment card .

The service is simple and easy to implement and requires the telephone order sales assistant to enter the card details and press the IIN look-up button whereby the system will determine which country the card has been issued in.

# IIN LOOKUP GUIDE

The IIN ( Issuer Identification Number) is taken from the first 6-9 numbers of a card and can be used to identify basic information about the card. The IIN Lookup functionality allows users to enter the IIN (or an entire card number) and retrieve this information

**Important: Card Issuers regularly update the IIN ranges, affecting the information that is returned by this service. We regularly update our records, but cannot guarantee the most recent details in all cases.**

## 1. PROCESSING THE LOOKUP

You can enter the following data into the Card number field:

- Enter the entire card number or the first 6-9card digits

## 2. Press “IIN Lookup” to submit the IIN Lookup request

Upon entering a valid IIN or card number, if the information is available to be returned, you will be presented with the following information :

- Card brand – the name of the payment method
- Payment type description – The English description of the payment method
- BIN category – Type of card Identified (e.g. consumer or commercial card)
- Issuer name
- Issuer country

IIN Lookup Results
